M1-61 同一区域内交换源密度与电势

$\partial V:\ \varphi_1 = \varphi_2 = 0$

$\rho_1(\mathbf{r})\varphi_2(\mathbf{r})$

在同一 V 上积分

$\partial V:\ \varphi_1 = \varphi_2 = 0$

$\rho_2(\mathbf{r})\varphi_1(\mathbf{r})$

边界形状与位置相同

$\int_V \rho_1\varphi_2\,dV = \int_V \rho_2\varphi_1\,dV$：格林第二恒等式的边界项为零
