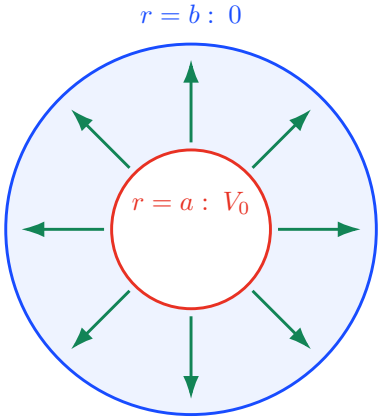
同心球面边值问题：两端电势固定，球壳内解唯一



$$a < r < b:\ \varphi = A + B/r$$

$$\varphi(r) = V_0 \frac{a(b-r)}{r(b-a)}$$

$$b \to \infty:\ \varphi \to V_0 a/r$$

外球面退到无穷远，得到孤立导体球外势。
