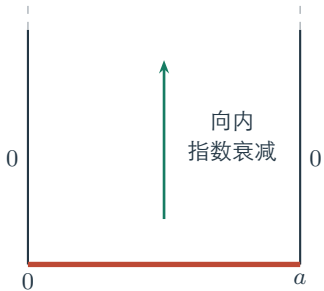
M2-097 边界正弦型只激发一个模态



底边单一正弦模态

$$f(x) = V_0 \sin(\pi x/a)$$

$$b_1 = V_0, \quad b_{n\neq 1} = 0$$

$$\varphi = V_0 \sin(\pi x/a) e^{-\pi y/a}$$

条带侧边接地；色边表示边界数据，非几何起伏。
