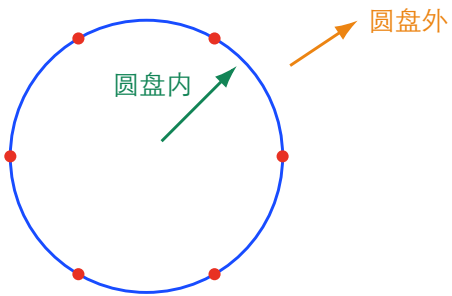
圆盘内外三阶模态：边界角函数相同，径向幂由正则性与衰减性选择



$\cos 3\phi$：三对正负瓣

$$\varphi_{\text{内}} = V_0(\rho/R)^3 \cos 3\phi$$

$$\varphi_{\text{外}} = V_0(R/\rho)^3 \cos 3\phi$$

两式在 $\rho = R$ 均回到 $V_0 \cos 3\phi$。
