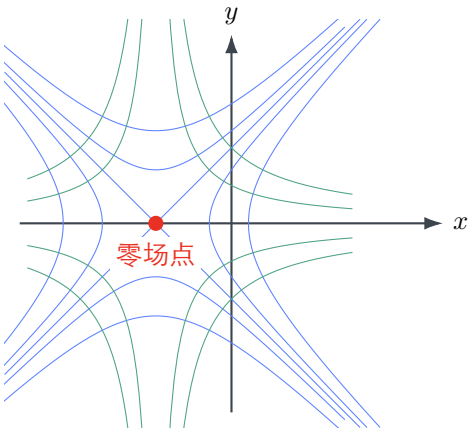
由电势求调和共轭：柯西黎曼条件把等势线与流函数线组成正交网



$$\psi = 2xy + 2y + C, \qquad W(z) = z^2 + 2z + iC$$

$$\mathsf{E} = (-2x - 2)\mathsf{e}_x + 2y\mathsf{e}_y$$

$$\mathsf{E} = 0 \Rightarrow (x, y) = (-1, 0)。$$
