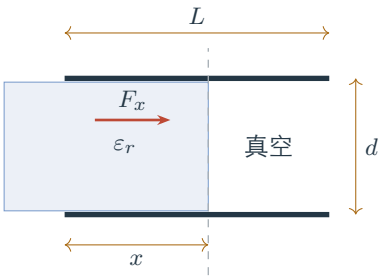
M3-027 部分插入平行板的介质板



纸面外宽 w；$+x$ 沿插入方向向右

$$C(x) = \frac{\varepsilon_0 w}{d}[L + (\varepsilon_r - 1)x]$$

$$F_V = \frac{\varepsilon_0 w(\varepsilon_r - 1)}{2d}V^2$$

$$F_Q = \frac{Q^2}{2C(x)^2}\frac{\varepsilon_0 w(\varepsilon_r - 1)}{d}$$
