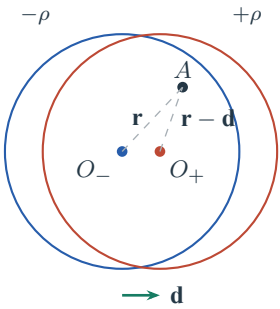
M3-014a 错开带电球得到均匀退极化场



微小错位已夸大；取保持 $\rho\mathbf{d} = \mathbf{P}$ 的极限

$$\mathbf{E}_+ = \rho(\mathbf{r} - \mathbf{d})/(3\varepsilon_0)$$

$$\mathbf{E}_- = -\rho\mathbf{r}/(3\varepsilon_0)$$

$$\mathbf{E}_{\text{dep}} = -\rho\mathbf{d}/(3\varepsilon_0) = -\mathbf{P}/(3\varepsilon_0)$$
