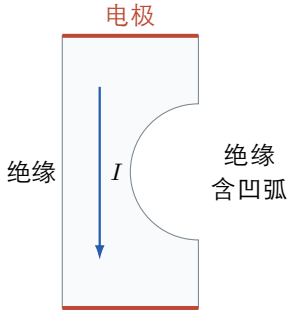
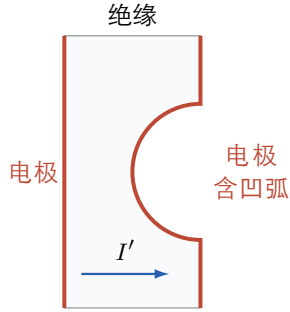
M4-024　电极边与绝缘边完整互换

原测量：上、下边为电极



$$R = U/I$$

新测量：完整边界角色互换



$$U' = R_{\square} I, \quad I' = U/R_{\square}$$

在同一方块电阻下旋转电场、片电流的方向：$RR' = R_{\square}^2$。蓝箭头仅标总电流正向。
