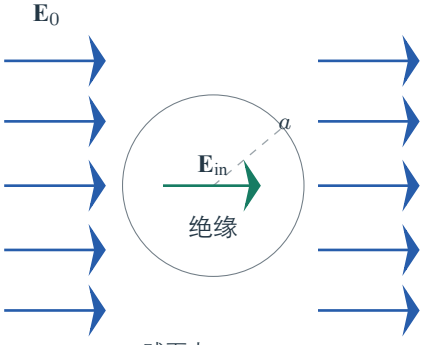
M4-020a 腔内有场，球面仍无传导通量



球面上 $J_n = 0$

图示子午截面中极轴向右

$$E_{\text{out},r}(a) = 0$$

$$E_{\text{out},\theta}(a) = E_{\text{in},\theta}(a)$$

$$\mathbf{J}_{\text{out}} = \sigma \mathbf{E}_{\text{out}}$$
