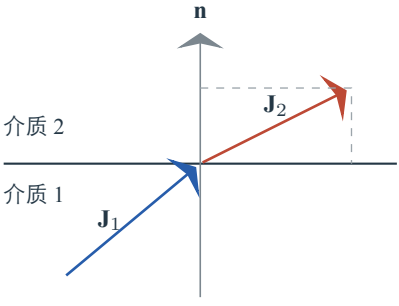
M4-086a 稳恒传导比较J，静电跃变比较D



$$J_{2n} = J_{1n} = J_n$$

$$J_{2t}/\sigma_2 = J_{1t}/\sigma_1$$

$$\sigma_f = (\varepsilon_2/\sigma_2 - \varepsilon_1/\sigma_1)J_n$$

夹角示意取 $\sigma_2 > \sigma_1$；无额外界面电流源
