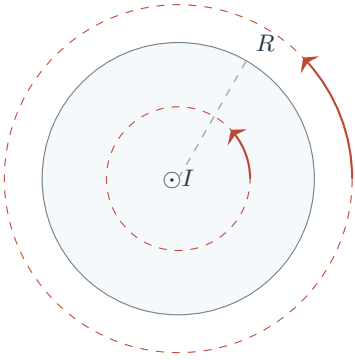
M5-042 由磁场反求电流密度



安培环路 C_r；正法向向纸外

$$J_z = \frac{1}{\mu_0 r}\frac{d}{dr}(rB_\phi)$$

$$r < R: \quad J_z = 4B_0 r^2/(\mu_0 R^3)$$

$$I = 2\pi R B_0/\mu_0, \quad K_z = 0$$
