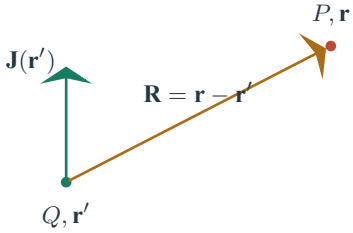
M5-056 量 纲 检 验



B 的方向来自 $\mathbf{J} \times \mathbf{R}$

$$\mathbf{A} = \frac{\mu_0}{4\pi} \int \frac{\mathbf{J}(\mathbf{r}')}{R}\, dV'$$

$$[A] = \mathrm{T\,m} = \mathrm{Wb/m}$$

$$[\nabla \times \mathbf{A}] = \mathrm{T}$$
