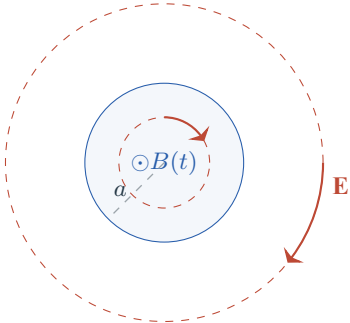
M5-077 有限变化磁场区域内外的感生电场

内外同心圆环路



$\dot{B}_z = \beta > 0$，实际电场顺时针

$$r < a : \quad E_\phi = -\beta r/2$$

$$r > a : \quad E_\phi = -\beta a^2/(2r)$$

$$E_\phi(a^-) = E_\phi(a^+)$$
