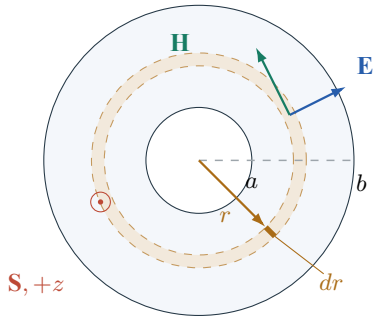
M7-005 同轴电缆中的功率传输



$$\mathbf{E} = \frac{V}{r\ln(b/a)}\mathbf{e}_r$$

$$\mathbf{H} = \frac{I}{2\pi r}\mathbf{e}_\phi, \quad P = VI$$

环带面积 $2\pi r\,dr$

$\mathbf{e}_r \times \mathbf{e}_\phi = \mathbf{e}_z$；点号表示能流出纸面。
