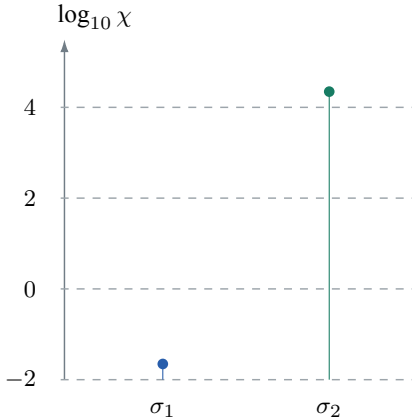
M7-057　同频率下的两种电流机制



$\sigma_1 = 10^{-2}$: $\chi_1 = 0.0222$

$\sigma_2 = 10^{-8}$: $\chi_2 = 2.22 \times 10^4$

$\chi = |J_d|/|J_c|$；两种介质共用对数纵轴，$\chi < 1$ 为传导占优。
